## beauty talk

When it comes to beauty, do you consider yourself high-maintenance? No. Let me tell you something. When I first became an actress, my grandmother Fran said, "You can't be an actress. You never even brush your hair." I was never into makeup or nails or any of that. Without my makeup friends I wouldn't have a clue.

**What's the best tip you've ever gotten from your friends? Make sure your skin looks great. If your skin is glowing and radiant, you're all set. I tend to break out, and I recently got turned on to this new line called DermaPro. My skin looks so much better! I use Pineapple Cleansing Scrub and the Raspberry Purifying Toner every day.**

What's the one product you can't live without? Nivea Extra Enriched lotion for your body. I've tried lots of moisturizers, and this is the best. It has a very neutral smell, and it makes your skin so soft. When I run out of it I panic.

You live near the beach. How about
